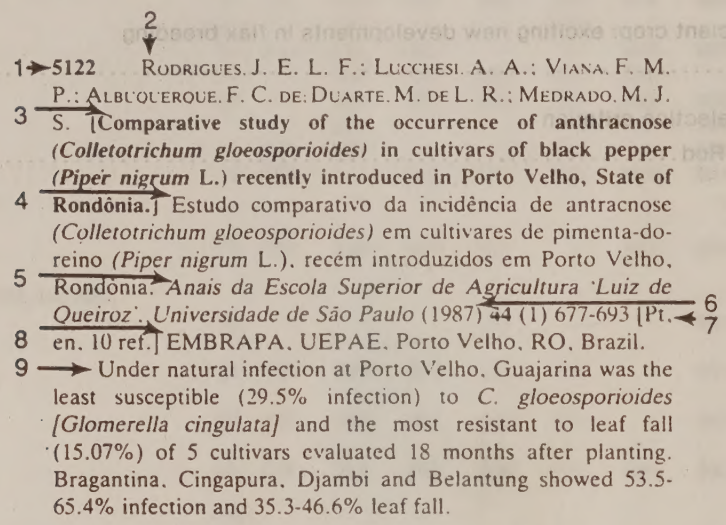
READERS' GUIDE TO ABSTRACTS

The layout of an abstract is indicated below:

1 Abstract number
2 Authors
3 Title in English
4 Original title if in a Roman script language
5 Name of journal or other document
6 Year of publication, volume, part number and pagination
7 Language of text and, in lower case, languages of summaries, followed by other bibliographic details such as number of references cited
8 Address of first author
9 Abstract



The title is treated as an integral part of the abstract.

For non-serial publications, such as books, transliterated titles are given for languages in Cyrillic or Greek scripts.

Editorial additions within abstracts appear in square brackets e.g. for preferred Latin names of organisms.

Where an item is not abstracted from the original document but from a secondary source, this is indicated after the author's affiliation.

The author and subject indexes for the twelve monthly parts are cumulated to provide annual indexes. Terms used in the indexes are taken from the CAB Thesaurus, 1988 edition.

TO OBTAIN A PHOTOCOPY of an abstracted paper, use the CAB International Document Delivery Service. A form is printed in this issue.

LIST OF SERIALS ABSTRACTED

Listed below are the titles of the serial publications (excluding most annual reports and conference proceedings) abstracted during 1992 for this journal. All the titles are given in full, except abbreviated titles taken from secondary publications such as *Referativnyi Zhurnal*.
Many other serials were scanned during 1992 but no relevant articles were selected. A full list of all the serials scanned for items suitable for abstracting for the CAB ABSTRACTS database and the whole range of CABI's abstract journals is given in the *CAB International Serials Checklist, 1988 edition*. The publication includes ISSNs and publishers' addresses.

INFORMATION SERVICES AND PUBLICATIONS

lmost 100 scientists/linguists in CABI's Information ervices at Wallingford, UK, with help from ssociated organizations and individuals worldwide, bstract and index the significant research and evelopment literature in agriculture, forestry and llied disciplines. Over 12,000 serials and many ther publications are scanned, and about 150,000 ibliographic records are compiled each year. From his computerized database, known as CAB ABSTRACTS, is derived a wide range of information ervices and products in printed and electronic form, esigned to meet a variety of customer needs.

OURNALS

nimal Science and Production
nimal Breeding Abstracts; Dairy Science Abstracts; lutrition Abstracts and Reviews, Series B–Livestock Feeds nd Feeding; Pig News and Information; Poultry Abstracts; Meat Focus International.

eterinary Science and Parasitic Diseases
Helminthological Abstracts; Index Veterinarius; Protozoological Abstracts; Review of Medical and Veterinary Entomology; Review of Medical and Veterinary Mycology; Veterinary Bulletin.

Crop Science and Production
Crop Physiology Abstracts; Field Crop Abstracts; Herbage Abstracts; Horticultural Abstracts; Irrigation and Drainage Abstracts; Maize Abstracts; Ornamental Horticulture; Plant Breeding Abstracts; Plant Genetic Resources Abstracts; Plant Growth Regulator Abstracts; Postharvest News and Information; Potato Abstracts; Rice Abstracts; Seed Abstracts; Soils and Fertilizers; Sorghum and Millets Abstracts; Soyabean Abstracts; Sugar Industry Abstracts; Wheat, Barley and Triticale Abstracts.

Forestry
Agroforestry Abstracts; Forest Products Abstracts; Forestry Abstracts.

Crop Protection
Biocontrol News and Information; Nematological Abstracts; Review of Agricultural Entomology; Review of Plant Pathology; Weed Abstracts.

Economics, Development and Sociology
Leisure, Recreation and Tourism Abstracts; Rural Development Abstracts; World Agricultural Economics and Rural Sociology Abstracts.

Machinery and Buildings
Agricultural Engineering Abstracts.

Human Nutrition
Nutrition Abstracts and Reviews, Series A–Human and Experimental.

Biotechnology/Biodeterioration
AgBiotech News and Information; Biodeterioration Abstracts; IMPACT AgBioIndustry.

ELECTRONIC JOURNALS

For subscribers who prefer to receive their regular CABI Abstract Journals in computerized format, Electronic Journals are available in comma–delimited, ISO2709 or Pro–Cite compatible format. The diskettes (either 3½" or 5¼") are supplied without retrieval software but in standard format so they can be easily used with most commercial database management software. Sample diskettes are available on request.

CD–ROMs

The database is also available on CD–ROM (Compact Disc Read Only Memory). CD–ROM technology provides an online search capability without the worries of cost or telecommunication problems. An IBM or fully IBM–compatible PC, 640K RAM, MS–DOS or PC–DOS version 3.1 or higher, and a CD–ROM player are needed. User–friendly software allows maximum search flexibility. A Macintosh version is available. CD–ROM titles available are: CABCD (CAB ABSTRACTS on CD–ROM), VETCD (veterinary science and animal health), BEASTCD (animal production and dairy technology), TREECD (forestry and forest industry), CABPESTCD (crop protection), HORTCD (horti–culture), SOILCD (soil and water sciences), Human Nutrition on CD – ROM (human nutrition) and PolTox III:CAB (pollution and toxicology).

MAGNETIC TAPES

Organizations with access to mini or mainframe computers may lease all or part of CAB ABSTRACTS on magnetic tape. Update tapes are issued monthly, and retrospective tapes as required.

SDI SERVICE

SDI (Selective Dissemination of Information) is a current awareness service based on the most recent input to the database. Subscribers decide their own search profile and receive search results at intervals of their choice, either in print or on floppy disks suitable for most microcomputers. Airmail ensures fast delivery.

CAB ALERTS

This is a monthly SDI service providing subscribers with the search results from standard profiles chosen by CABI. Numerous titles are available. Output is available in print or on floppy disk by airmail.

DOCUMENT DELIVERY SERVICE

Photocopies of originals of most articles included in the database are available from CABI Library Services, Silwood Park, Ascot, UK. Documents may also be ordered online via DIALORDER, DIMDI or PRIMORDIAL.

BOOKS AND SERIAL PUBLICATIONS

CABI publishes authoritative reference books, directories and serial publications, the latter including *Bulletin of Entomological Research, Outlook on Agriculture, Seed Science Research, Index of Current Research on Pigs, Distribution Maps of Pests, Distribution Maps of Plant Diseases, Bibliography of Systematic Mycology, Descriptions of Pathogenic Fungi & Bacteria, Index of Fungi,* and *Systema Ascomycetum*. CABI is a co–sponsor of the International Food Information Service which publishes *Food Science & Technology Abstracts.*

The Organization
CAB International (CABI) is an international, inter-governmental organization. It is owned by its member governments; these currently number 34, but membership is open to any others wishing to participate. Established in 1928, the organization provides information, scientific and development services for agriculture and allied disciplines throughout the world.

Information Services
The main task of the Information Services, located at the CAB International Centre (CABIC) at Wallingford, is the creation of a bibliographic database (CAB ABSTRACTS) of research on agriculture, forestry, the environment, applied social sciences and aspects of human medicine.

Relevant scientific and technical literature is acquired worldwide for abstracting and indexing by almost 100 scientists/linguists in five divisions:

Animal Health & Medical Parasitology
Animal Production & Human Nutrition
Crop Protection & Genetics
Crop Production
Natural Resources, Forestry & Economics

Further material is acquired and processed by collaborating or contracted organizations.

Abstract journals and electronic products derived from the database, and online access to it, provide unique sources of information for research scientists, development planners, educators and students.

The Information Services also publish primary journals and books, and offer training for information professionals, especially from developing countries.

Scientific Services
CABI's Scientific Services consist of four institutes and Library Services:

International Institute of Entomology
Acting Director, Prof. T. Jones, located at 56 Queen's Gate, London, and in the Natural History Museum.

International Mycological Institute
Director, Professor D.L. Hawksworth, located at Bakeham Lane, Egham, Surrey, TW20 9TY.

International Institute of Parasitology
Director, Dr R. Muller, located at Winches Farm, St Albans, Herts, AL4 0XU.

International Institute of Biological Control ,
Director, Dr J.K. Waage, has its headquarters at Silwood Park, Ascot and stations in Trinidad and Tobago, Switzerland, Pakistan, Kenya and Malaysia.

These Institutes provide an authoritative identification service for agricultural pests and other organisms, a biocontrol service, and conduct research, implement projects, and provide training in their fields of expertise.

Library Services
Manager, Mr C.J. Hamilton, have headquarters at Silwood Park, and operate document delivery and translation services.

Marketing and Development Services
MDS is responsible for the marketing of all CABI products and services, and for its development and training services. An important aspect is the establishment of effective partnerships with relevant development assistance agencies aimed at increasing the delivery of CABI services to developing countries.

Information Technology Services
ITS provide computing resources and services to all parts of CABI. A central computing facility is maintained with telecommunications access to seven remote sites, including the four CABI Institutes. CABIC is served by a modern Local Area Network which provides access to the computers, and by advanced office automation facilities. The staff include database production personnel, systems analysts, programmers and computer operators. The principal systems are for the production of the CAB ABSTRACTS database and associated functions, plus accessions control, subscription management and electronic publishing.
